Windows of Enduring Color Studio Designer Series

The tenth book in Wardell Publications' Studio Designer Series features the work of Preston Studios of Melbourne Florida.

Preston Studios made a big impression with their first book, *Windows of Enduring Beauty* and this second book of their work is impressive as well. The images in this collection capture the imagination of the chic designer in all of us. Stained glass has been around for hundreds of years and it has never been more popular than it is today. Preston Studios takes the art of glass to a new level with their colorful and creative designs. Many works are photographed showing the interior setting of the room to present the installation in its local environment.

This 80-page book contains more than 138 color photographs of stained glass entryways, doors and windows, 58 shown within the room setting. In addition you will find artist comments and design details for each installation, plus an interesting account of the studio's history and their design philosophy.

Product Details:
